Soar Valley College
A SPECIALIST MATHS AND COMPUTING COLLEGE
ASPIRE ENJOY ACHIEVE

Ethos and Values

Soar Valley College is a mainstream inclusive school and we support all students with a wide variety of additional needs.

We have an established ethos that allows all students to feel welcomed and encouraged. This is supported by the curriculum and physical environment and also manifested in relationships between all members of the school community.

We aim to ensure that all of our students with SEND (special educational needs and disability) are encouraged to play a full part in school life. Students with SEND will be supported by adults who are suitably trained or informed of their needs.

In line with the principles of the Special Education Needs Code of Practice 2015, we aim as a college to provide students with additional or differentiated support in order to enable them to access the curriculum and make good progress.

Types of SEND and provision

Pupil's needs may be linked to learning difficulties, physical or sensory difficulties, speech, language or communication difficulties, or a medical need. Children are identified as having SEND when they have a significantly greater difficulty in learning than the majority of children of the same age, or have a disability which prevents or hinders them from making use of education facilities of a kind generally provided for children of the same age. (SEND Regulations 2015).

The college has a dedicated suite of rooms for students with SEND. However, we expect students to access mainstream lessons and activities, with support, where necessary. We believe in quality first teaching for all students but where students require additional support we adapt resources and differentiate lessons to ensure expected progress or better for all SEND students. We have designated specialist provision from outside agencies to reinforce the work that is carried out in the faculty.

Identification of SEND

Before students join us in Year 7, The Learning Development Faculty spends time carefully gathering information from all of our feeder primary schools to discuss any additional needs they may have. This makes sure existing needs continue to be met.

We look at data such as entry profiles, SATs, FFT data, and reading and comprehension levels. We look particularly at students' subject assessments. We use different methods of assessing pupils when they start here with us in order to establish the best way we can offer support. We then have up to date information and data regarding any additional needs a student may have. We also check if a student has a reading age below 9 years on entry to Year 7, and we pay particular attention to any students who are not considered to be secondary ready. Support or intervention can then be put in place to enable them to "catch up".

For all students at Soar Valley, regardless of the year they are in, there are a number of additional indicators that can tell us if a student has SEND, such as;

- Information from teaching staff. Our teaching staff respond quickly to concerns they may have and we have a quick referral process in school to follow these up.
- Information and concerns from parents.
- Student self-reviews.
- Tracking individual student progress over time. Our data collection at 3 points during the year will automatically flag up concerns.
- Screening tests for reading and spelling carried out in Year 7, 8, and 9.
- Liaison with feeder primary schools on transfer.
- Information from previous Colleges/Schools that we refer back to even if students are not in year 7.
- Information from other services.

If teaching staff have any concerns about a student they complete a referral to the SENDCo who then follows this up and may carry out further investigations about any needs identified. Where we have concerns we always contact parents and will seek advice from other agencies as appropriate. All students who transfer to the college mid-term complete assessments so that we can meet any needs they may have.

How we meet the needs of students with SEND

The SENDCo maintains an up to date register of students identified as having additional needs. This is made available to all adults who work within the school.

Students with a Statement of Special Educational Need or Education Health and Care Plan (EHCP), and students who have SEND support, will have individual education advice available to all teachers. This is in the form of a pupil learning profile and it informs teaching staff of the students' individual needs and provides a list of personalised teaching strategies and advice, as well as a history of their SEND.

For students with EHCPs, provision will be in line with the recommendations on the plan. In line with the new Code of Practice from January 2015, students will gradually be transferred from Statement to 'EHC Plan', and any students requiring additional support will transfer to 'SEND Support'.

The Learning Development Faculty will ensure that all subject teachers are aware of any additional support that a child may need and we will advise teachers about the best way to provide that support for the child in their class. Staff training is regularly updated to ensure that we are equipped to meet the needs of all students. All teachers use a variety of techniques to ensure the needs of all students are provided for.

To compliment this and to help all students to achieve the very best they can, we have a range of additional interventions that we also use. These include;

- Differentiation of resources.
- Nurture provision in Year 7.
- Smaller group interventions that focus on specific skills such as literacy, spelling or social skills.
- Fresh Start reading scheme.
- Rapid Plus reading scheme.
- Inference skills training.
- WIT – "Whatever it Takes" as a local authority initiative to support literacy.
- Small group interventions with a focus on specific skills i.e. literacy, spelling or social skills.
- Social communication and interaction group.
- Longer literacy intervention programmes.
- Intensive short term interventions which can be delivered individually i.e. 1:1 that may address difficulties such as spelling and handwriting.
- Buddy reading clubs that run each morning during registration.

- There is a supervised homework club available at lunchtimes where support can be given to complete homework tasks.
- Vulnerable students can attend supervised activities at break and lunchtime every day.
- Support from learning mentors.
- Developing fine motor skills training course.
- ASDAN course in Y10 and Y11.
- SEFL – course delivered in Y10 and Y11.
- Peer support.
- In class support for small groups with an additional teacher or teaching assistant “TA”.

How will school staff support my child/young person?

Staff at Soar Valley pride themselves in providing Quality First Teaching through differentiation, effective feedback and marking, and by ensuring that student's needs are met within the classroom. The quality of teaching at Soar Valley is described as 'Outstanding' by OFSTED.

Subject teachers are responsible for all of the students that they teach. For those students identified with additional needs, teaching assistant support may be provided in some lessons. Faculty and subject teaching assistants are also available in some subject areas to support students.

Students who require specific interventions for literacy are withdrawn from mainstream lessons as appropriate. Interventions are specific to need and time related with clear targets. Progress is tracked by relevant staff and successes are shared and celebrated with parents and carers.

Governors play an active role in strategically monitoring the quality of our Special Education Needs and Disability provision.

Support from outside agencies

The SENDCo maintains links with other SENDCo's through the SENDCo network and in addition to this we have useful contact with many of the education support services available. We use the following services on a regular basis.

- Educational Psychology Service (EPS)
- L.C.I - Learning, Communication and Interaction Support Team (formally LAST, Learning and Autism Specialist Team)
- Speech and Language Therapy Services (SALT)
- Special Education Service (SES)
- Educational Welfare Service (EWS)
- Secondary Behaviour Support Service (SEMH)
- Outreach and Placement Team (OPT linked to Carisbrooke)
- Primary Behaviour Support Team
- SENDIASS - Special Educational Needs & Disabilities Information and Advice Support Service (Formerly Parent Partnership Service).
- Leicester Children's Hospital Schools
- Connexions
- Community Health Service.
- Child and Adolescent Mental Health Service (CAMHS).
- The Virtual School for Looked After Children and Young People.
- School counsellor
- School nurse

Quality of Provision

In order to maintain and develop the quality of our provision, there are regular opportunities for all college staff to undertake training in relation to special educational needs. Individual areas of interest, performance management review, self-review and staff observations support the identification of areas for development. The Learning Development team frequently run sessions that look at a specific area of educational need and how best to provide for this.

All Learning Development staff receive induction upon taking up a post within the department. There has been considerable training to support students with medical difficulties. All Teaching Assistants meet weekly for information updates and to share good practice.

We have a dedicated and extensive team that consists of SENDCo (Special Educational Needs And Disability Coordinator, Assistant SENDCo, 2 specialist teachers, 3 HLTA's (Higher level Teaching Assistants) and 17 TA's (Teaching Assistants)

The Learning Development staff have expertise in the following areas:

- Developing Literacy and Numeracy in Years 7-9.
- The Ruth Miskin Approach to Literacy.
- Supporting students with Specific Learning Difficulties.
- Supporting Students with Autistic Spectrum Conditions.
- Supporting students with a wide range of physical needs.
- Keeping accurate records.
- A range of vocational courses in Years 10 & 11 including ASDAN, Wider Key Skills, Practical Short Courses and STEP.
- Delivering a social interaction and communication programme
- Developing fine motor skills

Monitoring the progress of our provision

The progress of students is carefully tracked across all curriculum areas by staff and the SENDCo. All interventions are carefully and consistently monitored and reviewed and the results shared with teaching staff.

The learning development faculty is monitored through;

- Scrutiny of planning.
- Classroom observation.
- Work sampling.
- Teacher interviews.
- Informal feedback from TA's and other teaching staff.
- Teaching Assistants' reports.
- Self-Review activities.
- Questionnaires that students carry out about how they feel and their own progress.
- Analysis of assessment data relating to individual students.
- Minutes of Annual reviews for Students with a Statement of Special Educational Need or Education Health and Care Plan.
- Student review meetings and records of review meetings.
- Testing of progress.
- Subject Teacher questionnaires – following intervention.
- Student questionnaires - following intervention.

Providing the best outcomes for students

To ensure that we provide the best outcomes for our students we take the following steps;

- Student tracking systems are in place and include procedures for tracking students whose progress may be 'out of step' with peers.
- Assessment data is analysed and used to inform provision.
- The SEND register (in Learning Development Information booklet) is reviewed regularly, updated and distributed to all staff.
- The register is audited and analysed.
- There is movement on the register, both up and down the levels of intervention.
- All parents are informed of their child's special educational needs and of targets.
- Parents are able to express satisfaction with the provision made.
- Carers/parents attend and actively participate in Annual Reviews.
- Staff feel they have sufficient information and support.
- SEND files are up to date and accessible.
- The SENDCo attends meetings with the governor with responsibility for SEND.
- Resources are used effectively.
- All SEND staff are appraised and receive regular training.
- INSET is provided for Teaching Assistants.
- Self-Review activities take place.
- Analysis of provision and subsequent reports are used to inform future planning.

A child centred approach

We firmly believe that children themselves are a central part in our policy and decision making and all of our Annual Reviews are child centred.

We monitor the progress of students with disabilities and allow such students opportunities to suggest ways of improvement and to allow their views to be expressed.

Students complete a review 3 times a year with a member of staff. This information is then shared with the wider teaching community so that their views and opinions can help teaching staff to support appropriately and provide for their needs.

We encourage students to attend all meetings that concern them.

Support for social and emotional development

We are supported by an extensive pastoral system that consists of the form tutor, Assistant Head of Year, Head of Year, and the Inclusion team, who provide support work. We have mentors for individual students who may struggle with emotional and social needs. The school nurse and the school counsellor also play an important role in supporting the emotional and physical wellbeing of students.

We always take any incidents of bullying seriously and we recognise the many forms it may manifest itself in. Please refer to the schools anti-bullying policy for more information.

Accessibility arrangements

All schools have duties under the Equality Act 2010 towards individual disabled children and young people.

Reasonable adjustments are expected to be made.

Soar Valley College is a newly built BSF school and has been purpose built to suit the needs of 21st century learners whatever their needs and abilities.

We regularly carry out modifications to the physical environment that are required and that are within our control.

The College has the following facilities:

- Two lifts available for the College's upper floors.
- Toilets for the disabled on all floors.
- A hygiene room
- Accessibility for wheelchair users throughout the whole school
- Access to a range of equipment for students with visual impairments including a braille reader

We monitor the progress of students with disabilities and allow them opportunities to suggest ways of improvement and allow their views to be expressed.

We make adjustments to our provision and embark on appropriate training to ensure any barriers to learning are removed. Sometimes this will involve us acquiring specialist teaching resources and advice from specialist services.

No students at Soar Valley are discriminated against because of their needs and we endeavour to ensure the best provision is in place.

In rare circumstances we may not be able to meet the needs of a particular student. This will be discussed and we will help to find the most suitable provision to meet their needs.

In meeting these needs Soar Valley College has due regard to the SEND Code of Practice 2105, the Equality Act 2010 and the Disability Discrimination Act 2001.

Involving parents and carers

We believe that parents have a crucial role to play in our SEND provision. Parents know their child best. Parents of all students on the SEND register will be invited to attend a meeting twice a year with staff from the learning development faculty to ensure the information we have is correct, and up to date, and to help us to provide the best support for their child.

Parents are always informed if their child will be receiving a targeted intervention, and parents are always informed when an outside agency is involved. Parents are invited and encouraged to attend annual reviews, and any meetings where the process for statutory assessment is being carried out – when an application is made for an EHCP.

Parents are invited to meet with the SENDCo at three times during the school year to review progress and discuss needs.

We hope that you find this information useful. We welcome any feedback and will endeavour to work towards happy outcomes for all.

Below are a list of frequently asked questions. If they do not answer a question you may have, please contact the SENDCo, Mrs Loasby. All contact information can be found at the end of this document.

FAQ's

What do I do if I am concerned that my child has a SEND?

In the first instance you should raise any concerns with the SENDCo (Special Educational Needs and Disability Coordinator). All schools are required by law to have a SENDCo who oversees the special educational needs and disability provision. Our SENDCo is Mrs Loasby and you can contact her at any time during the school day. If Mrs Loasby is not available please leave a message and she will contact you as soon as possible. Alternatively you can speak to your child's form tutor who can pass on any concerns. All contact details can be found at the bottom of this document.

How will school staff support my child?

All teachers have a duty to support the children within their classroom. Any strategies or advice for individual students will be met by the classroom teacher. Students may be receiving additional intervention strategies from specially trained staff within school to work alongside work completed in the classroom.

How will I know how my child is doing?

Parents are central to the work we do with children who have SEND. As well as progress checks and parents evenings that occur throughout the academic year, all parents will be informed of any additional interventions their child is a part of. Parents play a key role for students with an EHCP and will always be invited to annual review meetings. You are welcome to contact the SENDCo at any time with any concerns or questions you may have. You will be invited to meet with teachers from the Learning Development faculty on 3 different occasions throughout the school year to discuss your child's progress and needs.

How will I be involved in discussions about my child's education and in planning?

For parents of children with EHCP's, parents will be formally invited to annual review meetings and receive a detailed plan as a result of this.

The SENDCo will be available at all parents evenings if parents wish to discuss their child further. Please make an appointment at the relevant time.

In addition to this you will be invited to meet with staff from the learning development faculty to specifically discuss your child's SEND, and the current provision.

What will happen when my child is ready to move into FE?

We have dedicated connexions advisors who work closely with our students to ensure the appropriate course is selected and the right college applied for. As a central part of the EHCP process in Y9 to Y11 there are specific targets for the transition to adult life and we will ensure extra support is provided for this. It may be through 1:1 sessions or as part of group work. Students will have all of their needs detailed on UCAS forms which the SENDCo will be responsible for providing.

The college holds regular sessions advising students of the courses available and open days and events for them to attend. In Year 10 all students take part in a careers programme that also helps to prepare them for further education.

How is the decision made about how much extra support my child should receive?

Our students have regular screening checks to show if they are struggling. The difference between how well they are performing in relation to their peers will determine how much extra support we will provide. We also have a referral system in place that teaching staff can use if they have concerns about the needs of an individual pupil.

Who do I contact if I am unhappy?

If you have concerns or queries about the provision of SEND please contact the SENDCo, Principal, or link governor.

Their contact details are below.

Mrs Charlotte Loasby – SENDCo
0116 2669625 ext: 8501
cloasby@soarvalley.leicester.sch.uk

To contact the Principal, Mrs Robinson, please contact her PA, Mrs Smita Stone
0116 2688441
SSStone@soarvalley.leicester.sch.uk

Mrs Vibha Gohil – SEND Governor
Vibha.gohil@leicester.gov.uk

Useful links

Leicester City Council, along with all other local authorities are required to publish information about the services they offer. It is called “The Local Offer”. The Local Offer outlines all support and services available across the areas of health and education and will improve choice and transparency for all families.
